About the University System of Maryland

The University System of Maryland (USM) is the state's public higher education system. The USM's 12 institutions, three regional higher education centers, and system office work closely together to leverage their collective expertise and resources, share best practices, increase the system's effectiveness and efficiency, and advance our mission to improve the quality of life in Maryland.

Greetings from the Chancellor

Welcome to the University System of Maryland. We are 12 institutions, three regional centers, and more than 200,000 people—students, faculty, and staff—dedicated to improving lives and strengthening communities across the state and around the world.

Each of our institutions is unique—in the students they serve and the missions to which they pledge themselves. We are powerful not *despite* this diversity but *because* of it—because we can join our different assets, expertise, and passions to expand the system's reach and amplify our impact.

In these pages, you'll see how each institution contributes to the USM's strength. I'm so glad you're getting to know us better.

Jay A. Perman
Chancellor
University System of Maryland

Connecting Maryland to Opportunity

The USM is making an impact in every corner of Maryland. Our presence extends from the Appalachian highlands to the Atlantic coast, and from the urban skylines of Baltimore to our state's oldest county in southern Maryland.

With 12 universities spanning the state, the USM fulfills Maryland's need for excellent, affordable, and accessible higher education. At our three regional higher education centers, the USM delivers our most in-demand programs to meet the needs of the workforce. Our institutions operate research incubators and technology parks that spark innovation and facilitate partnerships with local businesses.

USM faculty and students are involved in collaborative research at several multidisciplinary centers throughout the state, including the Institute of Marine and Environmental Technology and the Center for Biomedical Engineering and Technology. The University of Maryland Extension offices, administered through a partnership between the University of Maryland, College Park and the University of Maryland Eastern Shore, deliver USM research and problem-solving expertise to citizens in 23 Maryland counties and Baltimore City.

The USM is firmly rooted in Maryland, but our reach is boundless. Our institutions welcome thousands of international students to their campuses each year. In addition, the University of Maryland Global Campus delivers education programs at more than 170 locations worldwide through its longstanding partnership with the U.S. military.

USM Overview

UNDERGRADUATE STUDENTS: **126,704**

GRADUATE STUDENTS: **38,147**

FACULTY: **16,585**

STAFF (VARIOUS CATEGORIES): **23,443**

FACILITIES: **100 sites**

BUILDINGS: **Nearly 1,000, including 20 libraries**

These are the latest figures available at the time of publication (August 2022). Enrollment data are for fall 2021. The USM Office of Institutional Research presents and shares data to the Board of Regents and shares this information at www.usmd.edu/IRIS.

Leading Maryland to Excellence

The USM creates a dynamic and innovative environment that is helping to power Maryland, the nation, and the world forward. We are guided by our mission to pursue excellence in scholarship and teaching; research and innovation; economic and workforce development; community service; and diversity, equity and inclusion. In each of these areas, the USM is a recognized leader.

Scholarship and Teaching

Outstanding scholarship and teaching are the hallmarks of our USM institutions, which offer nationally- and world-renowned undergraduate, graduate, and professional programs. Recent higher education rankings—from publications such as *U.S. News & World Report*, *MONEY*, *The Wall Street Journal/Times Higher Education*, and *The Princeton Review*—have lauded USM institutions for their high-quality academic programs, innovation, and value. In fact, every eligible degree-granting institution from the USM has been singled out for praise by respected national publications.

Research and Innovation

USM faculty, staff, and students drive discovery across the state and around the globe, advancing research and understanding in many fields, including bioinformatics, cybersecurity, environmental science, food science, artificial intelligence, autonomous vehicles, social sciences, and vaccine development. Under the MPower initiative, the USM's two largest research institutions—the University of Maryland, Baltimore and the University of Maryland, College Park—are linked together as one research enterprise with combined research expenditures of \$1.1 billion. Through this unified effort, these two institutions, which now share a single vice president of research, rank in the national top 10 in external research funding.

Economic Growth and Workforce Development

USM institutions have a major impact on economic and workforce development throughout Maryland and the Mid-Atlantic region. Our system is home to three major research parks and 10 business incubators that support more than 300 tenants and more than 10 thousand jobs. In partnership with the State, the USM launched a \$33 million workforce development initiative that will generate 3,000 new high-demand credentials per year in cybersecurity, healthcare, engineering, and other critical and emerging fields. The USM's Maryland Momentum Fund, an early-stage investment fund supporting promising commercial research at USM campuses, has invested in 27 Maryland startup companies to date.

Community Outreach and Service

The USM is committed to improving Maryland communities by engaging with the citizens who live and work near our universities. Our institutions partner with local public schools, businesses, and nonprofits to strengthen PreK-12 education, improve access to health care, offer cultural programs, and provide other solutions that enhance the quality of life for all. In fact, USM students, staff, and faculty contribute more than two million hours of service to the community each year.

Diversity, Equity, and Inclusion

The USM believes that our institutions have a responsibility to advance equity and social justice both on campus and in society as a whole. We strive to create diverse learning environments that welcome and recognize the value of each member of the community. In the past 10 years, the USM has achieved a 26 percent increase in enrollment by minority populations and a 67 percent increase in the number of faculty positions held by minority populations. The USM is committed to dismantling structural racism and ensuring that each person receives fair treatment and equitable opportunities.

Bowie State University

Bowie State University (BSU) provides emerging leaders with a strong foundation for success. As the oldest historically black institution in Maryland, BSU has a rich history of high quality, affordable education that empowers students from diverse backgrounds to take charge of their future. With more than 60 undergraduate and graduate programs, the university places special emphasis on the science, technology, cybersecurity, teacher education, business, and nursing disciplines within the context of a liberal arts education. Programs in digital media communications together with Interdisciplinary programs in entrepreneurship and data science and analytics prepare students to become innovative and creative problem solvers in today's fast changing business environments. Located in one of the nation's most exciting metropolitan areas, BSU is within easy reach of Washington, DC, Baltimore, and Annapolis with a growing number of programs offered online.

BSU cybersecurity programs have been designated as a Nation Center of Academic Excellence in Cyber Defense.

One of the nation's top 25 HBCUs.
(U.S. News & World Report)

One of the nation's top 100 producers of minority degrees. *(Diverse: Issues in Higher Education)*

Coppin State University

Founded in 1900, Coppin State University is a comprehensive historically black institution in an urban environment, dedicated to providing students with a high-quality education and transformational experiences at an affordable cost. The university leverages its location within the City of Baltimore to offer academic and professional opportunities for students that will help shape their futures. Coppin State University is an anchor institution in West Baltimore with a rich history of providing resources and educational opportunities to its neighboring communities, and communities throughout Greater Baltimore.

At Coppin, students can study a wide array of academic disciplines, including the arts, sciences, technology, teacher education, business, social and behavioral sciences, nursing, and health information management. The university offers 61 academic programs, including bachelor's and master's degrees, certificate programs, and one doctorate program. Courses are offered during the day and evening, on weekends, and online to fit the needs of both traditional college students and adult learners balancing careers and personal responsibilities.

Frostburg State University

Frostburg State University (FSU) is a comprehensive, student-centered institution dedicated to providing a quality education that leads to real-world success. More than 100 innovative programs are offered at the undergraduate, master's, and doctoral levels at the Western Maryland campus, at sites around Maryland, and online. Frostburg has been recognized as a College of Distinction, a Military Friendly School, and with the President's Honor Roll for Service. At Frostburg State University students find a community that rallies around them and pushes them toward more. Members of Frostburg's diverse student body receive personal attention from excellent professors and have opportunities for prestigious internships, exciting research with faculty, service-learning, and study abroad.

FSU was recognized by *Washington Monthly* as a "Best Bang for the Buck" and for contributing to the public good in social mobility, research, and public service.

By their senior year, 97 percent of FSU students have participated in high-impact activities such as an internship, research with a faculty member, or study abroad.

Frostburg serves as a cultural, economic, and workforce development hub of Western Maryland and its surrounding region.

Salisbury University

Salisbury University sets success in motion with a community and culture where every student is heard, seen, supported, celebrated and challenged. SU propels you forward to a better tomorrow in both your life and career. In Salisbury's warm and welcoming environment, professors mentor students in a way that sparks change by connecting ideas to real-world, hands-on experiences. Study where your opportunities are endless, your cost is affordable and your return on investment will pay back a lifetime of possibilities. This is why so many Salisbury graduates are thriving in their lives, communities and careers – across Maryland and beyond.

SU nursing students continue to have the highest pass rates of all USM institutions on the National Council Licensure Examination for Registered Nurses, with a first-time pass rate of 95%.

A record nine SU students earned the prestigious Fulbright Student Award for 2022-23, and *The Chronicle of Higher Education* has spotlighted SU as a Top Producing Institution of both Fulbright Students and Scholars.

Each year, SU provides \$300,000 in support for entrepreneurs and business startups through its Ratcliffe Foundation Shore Hatchery program and Student Entrepreneurship Competitions.

Towson University

Towson University (TU) is recognized as a top public university with a 150-year history of academic excellence and world-changing research. As Greater Baltimore's largest and Maryland's fastest-growing university, TU offers more than 110 bachelors, master's, and doctoral degree programs in the liberal arts, sciences, and applied professional fields. With a deep commitment to equity and inclusion, TU is one of only a handful of institutions in the nation where graduation and retention rates are the same for all students. TU is a community-engaged anchor that partners with hundreds of organizations in the region to fuel positive change in communities.

One of the nation's top 100 public universities.
(U.S. News & World Report)

The largest producer of undergraduate health professionals in Maryland.

One of only 15 institutions in the U.S. with 85 percent or more of students registered to vote.

University of Baltimore

The University of Baltimore (UBalt) is located in Baltimore's Mount Vernon cultural district and offers career-focused education for aspiring and current professionals. The university is actively involved with its surrounding communities through its legal clinics and its centers, including the Schaefer Center for Public Policy; the Sayra and Neil Meyerhoff Center for Families, Children, and the Courts; the Center for Entrepreneurship and Innovation; and The Bob Parsons Veterans Center. Each of its four schools—the Merrick School of Business, the Yale Gordon College of Arts and Sciences, the College of Public Affairs, and the School of Law—plays vital roles in the progress of the city and of the state.

One-third of Maryland's state court judges are UBalt alumni.

UBalt earned a Gold Seal from the ALL IN Campus Democracy Challenge for nonpartisan student voter participation efforts in the 2020 presidential election. Student voting rose significantly in that election to 72.6 percent.

UBalt's Division of Student Success and Support Services helps to develop students as citizens and critical thinkers and prepare for careers in an evolving marketplace.

University of Maryland, Baltimore

The University of Maryland, Baltimore (UMB) is the state's only health, law, and human services university and features six nationally ranked professional schools—medicine, law, dentistry, pharmacy, nursing, and social work—and the interdisciplinary Graduate School. UMB is a leading academic health center, combining cutting-edge biomedical research and exceptional clinical care. The university attracted \$682 million in grants and contracts in Fiscal Year 2021 and its faculty are among the nation's most productive researchers. The University of Maryland BioPark, Baltimore's biggest biotechnology cluster, fuels the commercialization of new drugs, diagnostics, and devices, giving more than 1,000 researchers and entrepreneurs space to create and collaborate.

Through its Community Engagement Center and programs such as CURE Scholars, UMB provides its West Baltimore neighbors with access to health care, employment support, and more.

Together with the University of Maryland Medical Center and affiliated physician practices, UMB generates nearly 17,000 jobs and \$7.9 billion in annual economic activity.

The Center for Vaccine Development and Global Health and the Institute of Human Virology are leading the way in the fight against infectious diseases worldwide.

University of Maryland, Baltimore County

The University of Maryland, Baltimore County (UMBC) is a leading public research university known for innovative teaching, relevant research across disciplines, and a supportive community that empowers and inspires inquisitive minds. UMBC serves nearly 14,000 undergraduate and graduate students and is one of the country's most inclusive education communities. *U.S. News & World Report* has named UMBC a leader in both innovation and undergraduate teaching—#6 nationally in both categories. *U.S. News* has also recognized UMBC for exceptional graduate programs and for social and economic impact. UMBC is among the top 100 public U.S. universities in federal research funding, and more than 130 companies are located at the bwtech@UMBC Research and Technology Park, home to Maryland's first cyber incubator.

UMBC has reached the nation's highest level of research performance, R1 Carnegie Classification. High-impact UMBC research areas include the environment, health, data science, national security, equity, and social justice.

UMBC is a member of the University Innovation Alliance, a pioneering consortium of public research universities focused on scaling up effective student success models, like providing students with one-on-one academic advocacy.

UMBC alumni include leaders at all levels, from speaker of the Maryland House of Delegates and university presidents, to Baltimore City health commissioner and a lead developer of the NIH-Moderna COVID vaccine.

University of Maryland Center for Environmental Science

The University of Maryland Center for Environmental Science (UMCES) is a leading research and educational institution working to understand and manage the world's resources. Through its network of four regional laboratories—the Appalachian Laboratory in Frostburg, the Chesapeake Biological Laboratory in Solomons, the Horn Point Laboratory in Cambridge, and the Institute of Marine and Environmental Technology in Baltimore—UMCES provides sound scientific advice to help state and national leaders manage the environment and prepares future scientists to meet the global challenges of the 21st century.

UMCES' scientists provide unbiased research to inform public policy and key leadership in the Chesapeake Bay restoration effort.

UMCES works across disciplines in diverse, global settings, seeking solutions that address environmental challenges and improve people's lives.

UMCES students work side-by-side with faculty from day one and go on to careers in the public and private sectors, research, and environmental advocacy.

University of Maryland Eastern Shore

The University of Maryland Eastern Shore (UMES) is a historically Black, land-grant institution. UMES offers bachelor's degrees in 37 disciplines, spanning physical and biological sciences, social and behavioral sciences, engineering, education, mathematics, information technology, humanities, and golf management. Cybersecurity and pharmaceutical sciences are among the 15 master's degree programs in UMES' graduate school, which also offers two post-baccalaureate certificates and eight doctoral degrees. UMES provides individuals, including first generation college students, access to a holistic learning environment that fosters multicultural diversity, academic success, and intellectual and social growth. UMES has been recognized for its focus on developing programs to serve critical workforce needs, especially in the health professions. According to the National Science Foundation, 60% of the degrees awarded at UMES are in high-demand STEM fields.

University of Maryland Global Campus

Celebrating its 75th anniversary in 2022, University of Maryland Global Campus (UMGC) offers open access with a global footprint and a unifying mission: To inspire hope, empower dreams, and transform lives...one student at a time. Each year, UMGC serves more than 34,000 adult learners in Maryland and an overall total of some 90,000 around the world—individuals whose responsibilities may include jobs, family, and military service. UMGC offers bachelor's, master's, and doctoral programs—as well as certificates—online or in hybrid or face-to-face formats at more than 20 locations across the Maryland, Washington, D.C., and Northern Virginia region. The university's award-winning programs are designed with workforce needs in mind in high-demand disciplines such as biotechnology, cybersecurity, data analytics, and information technology. UMGC has served the educational needs of the U.S. military around the world for more than 70 years.

UMGC staffs 175+ classroom and service locations in more than 20 countries and territories worldwide.

U.S. News and World Report ranked UMGC #1 in the number of transfer students accepted.

UMGC has 140+ corporate partners and 60+ community college alliances, as well as partnerships with HBCUs, the federal government, public schools, and nonprofits.

USM Regional Higher Education Centers

USM's three regional centers are the result of a visionary partnership between USM and campus leaders, elected officials, and business professionals. These are not “satellite” campuses of a single university, but rather conveniently and strategically located sites where multiple universities deliver their most in-demand undergraduate, graduate, professional, and certificate programs. Students at USM regional centers receive their degree from the university in which they enroll, and they benefit from the same curricula, courses, and professors as students pursuing the same program on the university's main campus.

The Universities at Shady Grove

The Universities at Shady Grove (USG) offers nearly 80 undergraduate and graduate degree programs from nine Maryland public universities on one convenient campus in Montgomery County. USG helps prepare students for rewarding careers in the region's most high-demand fields, such as accounting, biotechnology, cybersecurity, hospitality, nursing, social work, and many more.

USM Leadership

Board of Regents

A 21-member Board of Regents, including two students, governs the University System of Maryland. Appointed by the governor, president of the Maryland Senate, and the speaker of the Maryland House of Delegates, the regents oversee the system's academic, administrative, and financial operations; formulate policy; and appoint the USM chancellor and the presidents of the system's 12 institutions. With their experience in many fields—including education, business, service, and law—regents volunteer their expertise and time to help the university system meet the diverse needs of its students and the state.
